

### Insight-Driven Organizational Learning

**Challenge:** Nonprofits are deeply committed to delivering services, but that often means there's little time to pause and reflect on what's working, where challenges exist, and how to communicate results and impact to funders and stakeholders.

#### **EduDream's Solution: Insight-Driven Organizational Learning** 🔍

EduDream helps nonprofits confirm and deepen their team's understanding of their strengths, challenges, and context. We surface emerging insights and trends that bring clarity and lay the foundation for evaluation planning and stronger storytelling.

**Outcome:** Whether you're preparing for a new grant, seeking to expand your reach, or making a case to funders, EduDream equips you with a clearer picture of your organization's impact and opportunities so you can make more informed decisions and elevate your story.

**Timeframe:** 4-6 weeks

**Investment:** Starts at \$3,900

Let us help bring clarity  
about your organization's  
strengths, opportunities,  
and story.

### Inclusive, Insight-Driven Evaluation Planning

**Challenge:** After gaining clarity from our organizational learning solution, nonprofits face a second hurdle: how to plan meaningful evaluations when they lack the time, expertise, or objectivity to engage the voices that matter most — those directly impacted by and supporting the work.

### EduDream's Solution: Inclusive, Insight-Driven Evaluation Planning

EduDream facilitates inclusive and strategic evaluation planning by engaging stakeholders who deliver, support, and are impacted by nonprofit programs. Through structured engagement, we help uncover what stakeholders want to learn through an evaluation. This process ensures evaluations are not only rigorous but also relevant, equity-focused, and meaningful.

**Outcome:** When stakeholders help shape evaluation questions, nonprofits build trust, gain richer insights, and create evaluations that lead to stronger programs, not just stronger reports. This approach fosters buy-in and sets the stage for ongoing learning and improvement.

**Timeframe:** 8-12 weeks

**Investment:** Starts at \$19,000

Let us help you engage stakeholders and reimagine evaluation planning.

### Co-Create Evaluation Plan

**Challenge:** Even with valuable stakeholder input, many nonprofits encounter a challenge when it's time to translate insights into a coherent and feasible evaluation plan. Teams often lack the time, technical expertise, or facilitation support to bring everyone together and shape a plan that reflects shared priorities.

**EduDream's Solution: Co-Create Rigorous and Relevant Evaluation Plan** 📝✏️

EduDream facilitates a structured, collaborative process to help nonprofits co-create a rigorous and relevant evaluation plan that reflects stakeholder voices and aligns with organizational learning goals. We support your team from start to finish.

**Outcome:** A co-created evaluation plan builds alignment, accountability, and clarity. It equips nonprofits with a shared roadmap to measure what matters and strengthen their case to funders, enabling continuous improvement.

**Timeframe:** 4-6 weeks

**Investment:** Starts at \$12,900

Let us help you design an evaluation plan that measures what matters most.
